

Safety Data Sheet

Section 1: Identification

Product Name	•Voodoo Sweep™
Product Code	•N/A
Recommended use	•Viscosifier
Manufacturer	•Ascendant Completion Services LLC 1720 Kaliste Saloom Ste A9 Lafayette, LA 70508
Telephone	•337-268-9225
Emergency Telephone	•337-268-9225

Section 2: Hazard Identification

United States (US)

According to OSHA 29 CFR 1910.1200 HCS

- Skin Sensitization: Category 1
- Hazards Not Otherwise Classified: Combustible Dust

Classification of the substance or mixture

- | | |
|----------------------|---------------------------|
| OSHA HCS 2012 | •Skin Irritation 1 |
| | May form combustible dust |

Label elements

OSHA HCS 2012

WARNING

Hazard statements

- May cause skin irritation or allergic skin reaction.
- May form combustible dust concentrations in air.

Precautionary statements

- Keep away from heat, and all hot surfaces.
- Keep container tightly closed.

Prevention

- Use only non-sparking tools.
- Avoid breathing dust, fume, gas, mist, vapors and/or spray.
- Wash thoroughly after handling.
- Use only outdoors or in a well-ventilated area.
- Wear protective gloves/protective clothing/eye protection/dust mask.

Response

- IN CASE OF FIRE: Use appropriate media for extinction.
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- Call a POISON CENTER or doctor/physician if you feel unwell.
- IF ON SKIN: Wash with plenty of soap and water. Rinse skin with water/shower. Take off contaminated clothing and wash before reuse. If skin irritation occurs: Get medical advice/attention.
- SPECIFIC TREATMENT: see supplemental first aid information.

Storage/Disposal

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
- Store in a well-ventilated place.
- Keep container tightly closed and keep dry.

Other hazards

OSHA HCS 2012

- Under United States Regulations (29 CFR 1910.1200- Hazard Communication Standard), this product may form combustible dust concentrations in air (during processing and handling). Dust may cause mild, mechanical irritation.

Other information

NFPA

Section 3: Composition/Information on Ingredients

Substances

- Material does not meet the criteria of a substance

Mixtures

Hazardous Components					
Chemical Name	Identifiers	% (weight)	LD50/LC50	Classifications According to Regulation/Directive	Comments
Polymer Blend (Trade Secret)	Trade Secret	>98%	N/A	OSHA HCS 2012: Solid 0; Asp. 1, Skin Irrit. 1	N/A

Section 4: First-Aid Measures

Description of First Aid Measures

Inhalation	<ul style="list-style-type: none"> •May produce allergic reaction or irritation of respiratory tract. Move victim to fresh air. Administer oxygen if breathing is difficult.
Skin	<ul style="list-style-type: none"> •May produce allergic reaction or irritation. In case of contact with substance, flush skin with running water for at least 20 minutes. Wash skin with soap and water. Get medical advice/attention if irritation persist.
Eye	<ul style="list-style-type: none"> •IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
Ingestion	<ul style="list-style-type: none"> •May cause irritation. Do NOT induce vomiting. If person is drowsy or unconscious and vomiting, place on left side with head down. Seek medical attention.

Most important symptoms and effects, both acute and delayed

- Refer to Section 11 – Toxicological Information.

Indication of any immediate medical attention and special treatment needed

Notes to Physician	<ul style="list-style-type: none"> •All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.
---------------------------	---

Section 5: Fire-fighting Measures

Extinguishing Media

Suitable Extinguishing Media

- Regular foam, carbon dioxide, dry chemical.

Unsuitable Extinguishing Media

- ND

Special Hazards arising from the substance or mixture

Unusual Fire & Explosion Hazards

- ND

Hazardous Combustion Products

- ND

Advice for Firefighters

- Structural firefighters' protective clothing will only provide limited protection.
- Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.
- Wear positive pressure self-contained breathing apparatus (SCBA).
- Move containers from fire area if you can do it without risk.
- Use water spray to cool containers exposed to fire.

Section 6: Accidental Release Measures

- | | |
|----------------------------------|---|
| Personal Precautions | •Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. |
| Emergency Procedures | •As an immediate precautionary measure, isolate spill or leak area for at least 150 feet (50 meters) in all directions. Keep out of low areas. Keep unauthorized personnel away. |
| Environmental Precautions | •No special environmental precautions required. |

Methods and Material for Containment and Cleaning Up Containment/Cleanup Measures

- Stop spillage if you can do it without risk. Avoid the generation of dusts during clean-up. Collect powder using vacuum cleaner with particle filter or carefully sweep into closed container.

Section 7: Handling and Storage

Precautions for Safe Handling Handling

- Empty containers may retain product residue, so, proceed accordingly.

Conditions for safe storage, including any incompatibilities

Storage

- Keep container closed when not in use. Keep away from incompatible materials.

Incompatible Materials or Ignition Sources

- Keep away from oxidizers and strong acids

Section 8: Exposure Controls/Personal Protection

Exposure controls

Engineering

- Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable exposure limit values.

Personal Protective Equipment

Pictograms

Respiratory

- Use where there is sufficient ventilation, wear dust mask.

Eye/Face

- Wear goggles.

Hands

- Wear protective gloves – neoprene, butyl or nitrile rubber.

Skin/Body

- An apron may be helpful to prevent irritation from powder getting on skin due to accidental spills

General Industrial Hygiene Considerations

- Handle in accordance with good industrial hygiene and safety practice.

Environmental Exposure

- Wash thoroughly with soap and water after handling.
- Safety shower and eye wash should be available close to work areas.
- Follow best practice for site management and disposal of waste. Avoid release to the environment.

Section 9: Physical and Chemical Properties

Material Description			
Physical Form	Powder	Appearance	Particulate powder
Color	Cream to tan	Odor	Characteristic
Taste	Data lacking	Particulate Type	Data lacking
Particulate Size	Data lacking	Aerosol Type	Not relevant
Odor Threshold	Data lacking	Physical & Chemical Properties	Data Lacking
Boiling Point	Data lacking		
Decomposition Temp	Data lacking	Heat of Decomposition	Data lacking
pH	Data lacking	Specific Gravity	Data lacking
Density	Data lacking	Bulk Density	0.75-0.90 g/cm3
Water Solubility	Soluble	Solvent Solubility	Data lacking
Viscosity	Data lacking	Explosive Properties	Classification criteria not met.
Oxidizing Properties	Classification criteria not met		
Volatility			
Vapor Pressure	Data lacking	Vapor Density	Data lacking
Evaporation Rate	Data lacking	VOC (wt.)	Data lacking
VOC (vol.)	Data lacking	Volatiles (wt.)	Data lacking
Volatiles (vol.)	Data lacking		
Flammability			
Flash Point	Data lacking	UEL	Data lacking
LEL	Data lacking	Autoignition	Data lacking
SADT	Data lacking	Heat of Combustion	Data lacking
Burning Time	Data lacking	Flame Duration	Data lacking
Flame Height	Data lacking	Flame Extension	Data lacking
Ignition Distance	Data lacking	Flammability (solid, gas)	Classification criteria not met.
Environmental			
Half-life	Data lacking	Octanol/Water Partition coefficient	Data lacking
Coefficient of water/oil dist.	Data lacking	Bioaccumulation Factor	Data lacking
Bioconcentration Factor	Data lacking	Biochemical Oxygen Demand BOD/BOD5	Data lacking
Chemical Oxygen Demand	Data lacking	Persistence	Data lacking
Degradation	Data lacking		

Section 10: Stability and Reactivity

- Reactivity** •No dangerous reaction known under conditions of normal use.
- Chemical Stability** •Stable under normal temperatures and pressures.
- Possibility of Hazardous Reactions**
•Under normal conditions of storage and use, hazardous reactions will not occur.
- Conditions to Avoid** •Strong oxidizing agents.
- Incompatible Materials**
• Strong oxidizing agents.
- Hazardous Decomposition Products**
•No further relevant information available.

Section 11: Toxicological Information

Information on Toxicological Effects

Component Name	CAS	Data
Polymer Blend	Trade Secret	Data lacking
GHS Properties	Classification – Warning, non-hazardous	
Acute Toxicity	OSHA HCS 2012 •Classification criteria not met	
Aspiration Hazard	ND	
Carcinogenicity	OSHA HCS 2012 •Classification criteria not met	
Germ Cell Mutagenicity	OSHA HCS 2012 •Classification criteria not met	
Respiratory Sensitization	OSHA HCS 2012 •Classification criteria not met	
Serious Eye Damage/Irritation	OSHA HCS 2012 •Classification criteria not met	
Skin Corrosion/Irritation	OSHA HCS 2012 •Classification criteria not met	
Skin Sensitization	OSHA HCS 2012 •Classification criteria not met	
STOT-RE	OSHA HCS 2012 •Classification criteria not met	
STOT-SE	OSHA HCS 2012 •Classification criteria not met	
Toxicity for Reproduction	OSHA HCS 2012 •Classification criteria not met	

- Target Organs** •Note below
- Route(s) of Entry/Exposure** •Inhalation, Skin, Eye, Ingestion

Potential Health Effects

Inhalation

- Acute (Immediate) •May cause irritation or allergic reaction.
- Chronic (Delayed) •No data available.

Skin

- | | |
|-------------------|---|
| Acute (Immediate) | •May cause irritation or allergic reaction. |
| Chronic (Delayed) | •No data available. |

Ingestion

- | | |
|-------------------|------------------------|
| Acute (Immediate) | •May cause irritation. |
| Chronic (Delayed) | •No data available. |

Eye

- | | |
|-------------------|--|
| Acute (Immediate) | •May cause mechanical irritation or allergic reaction. |
| Chronic (Delayed) | •No data available. |

Section 12: Ecological Information

Toxicity

- Material data lacking.

Persistence and Degradability

- Material data lacking.

Bioaccumulative Potential

- Material data lacking.

Mobility in Soil

- Material data lacking.

Other Adverse Effects

- Material data lacking.

Other Information

- No data is available on the adverse effects of this material on the environment.

Section 13: Disposal Considerations

Waste Treatment Methods

Product Waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging Waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Section 14: Transport Information

	14.1 UN Number	14.2 UN Proper Shipping Name	14.3 Transport hazard class(es)	14.4 Packing Group	14.5 Environmental Hazards
DOT	Not Applicable	Not Applicable	Not Regulated		
TDG	Not Applicable	Not Applicable	Not Regulated		
IMO/IMDG	Not Applicable	Not Applicable	Not Regulated		
IATA/ICAO	Not Applicable	Not Applicable	Not Regulated		

Special Precautions for User

- None Specified.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code •Not Applicable

Safety, Health and Environmental Regulations/Legislation Specific for the Substance or Mixture

SARA Hazard Classification •No components present in this product are listed.

Section 15: Regulatory Information

State Right To Know				
Component	CAS	MA	NJ	PA
Polymer Blend	ND	ND	ND	ND

Inventory				
Component	CAS	Canada DSL	Canada NDSL	TSCA
Polymer Blend	ND	ND	ND	ND
